UNIFORMS

INHERENT FLAME RESISTANCE (IFR)

A material which is inherently flame resistant will have flame resistance built into the core chemical structure. The built-in quality of the resistance means it cannot be worn or washed away from the product.

FIRE RETARDENT CLOTHING (FRC)

Clothing worn to protect workers from fire is commonly referred to as "FRC" which is the acronym for Flame Resistant Clothing. Safety Smart Gear offers a selection of quality FRC such as lab coats, flame resistant pants, flame resistant shirts, and flame resistant coveralls made in various types of flame resistant materials

NON FR UNIFORMS /PPE

A safety uniform, sometimes also referred to as PPE, is a standardized set of clothing and accessories aimed at protecting employees from hazards while they go about their jobs.
